

GRAND OPENING!

Saturday, June 2nd from 10:00 am – 1:00 pm

The Family Garden is a resource hub for Longmont area parents. We offer education, inspiration and community for families throughout pregnancy, birth and early childhood. Our services include child birth classes, yoga and fitness classes, parenting education, parent/child activities, support groups, health and wellness education, and community building. The best news? As a non-profit, all services at The Family Garden are offered on a sliding scale based on your ability to pay, allowing everyone in our community to freely access the support they need to build healthy, happy families. Free child care is available on site, with licensed child care supervisors and an exceptional play space. Our facility offers a fitness studio and locker room, classroom space, outdoor seating, and free wi-fi and beverages.

Magical Beginnings • Healthy Families • Inspired Lives
